DETAILED ACTION

1. This application claims priority of the foreign application:
GERMANY 10236262.9 with a filing date 08/07/2002.
2. Amendment of claim 1 and remarks in the amendment filed on April 13, 2005, is acknowledged. Claims 1-9 are pending in the application.

Responses to Amendment/Arguments

3. Rejection of claims 1-9 (i.e., oxime functions) under 35 U.S.C. 112, first or second paragraph, has been overcome in the amendment file on April 13, 2005. Applicant's arguments regarding rejection of claim 7 (i.e., prophylaxis) under 35 U.S.C. 112, first paragraph, have been fully considered and they are persuasive. The instant method of claim 7 is drawn to treatment or prophylaxis of bacterial infections using compounds of formula (I) to a patient in need.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Claims 1-9 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to polyisoprenylbenzophenone derivatives, processes for their preparation and use thereof. The closest reference is Holton et al. US 5,284,864, discloses butenyl substituted taxanes and pharmaceutical compositions containing them. The difference between Holton et al. '864 and instant claims is that instant compounds of formula (I) are not found in Holton et al. Suggestion

for modification of above record to obtain the instant claimed compounds/compositions, processes of making, and methods of use has not been found. Claims 1-9 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
